

10 Questions to Ask a Dealer When Buying an Outdoor Building (And Our Answers at Beaulier Buildings)

- 1. How long does it take to get the building?** Our buildings are in stock and available for immediate delivery. No need to wait to have it constructed. Yes, even for a garage sized building!! Just think, a new garage in just a few days. Your vehicle will thank you.
- 2. Will it hold my vehicle?** Yes, any building that is 12' or 14' wide is built to withstand a heavy vehicle.
- 3. What site preparation do I need?** All you have to do is have a level spot, gravel or grass. There is no need for a concrete slab nor is the building put up on blocks. It is placed directly on the ground, on treated runners, for the best wear.
- 4. If I move, can I have the building moved as well?** Yes, we will move buildings for a fee.
- 5. Does the building come fully assembled?** Yes, all of our buildings are fully assembled, never in kit form, ensuring a quality product.
- 6. Are the buildings secure?** Yes, there is a double-locking mechanism on all our buildings, making entry very difficult. Wooden doors can easily be broken into.
- 7. What are the exterior walls made of and will they hold up in harsh weather?** Our walls are made of T1-11 primed siding, then painted with A100 Sherwin Williams paint, which will last for many years.
- 8. If I use the larger buildings as a garage, are the floors waterproof?** Yes, we use BB Oiled and Sealed plywood on the top layer to prevent any water damage.
- 9. Is there a delivery charge?** There is no delivery charge up to 80 miles and we are also waiving the oversize permit fee (where applicable). After 80 miles, it is \$4.00 per loaded mile on the 8' and 10' wide buildings, \$5.00 on the 12' wide and \$6.00 on the 14' wide buildings.
- 10. Will the buildings handle a heavy snow load and are they built to code for the delivered area?** Our buildings are built to handle the snow throughout the Upper Peninsula, so we are safe wherever we go.
